

# Vitality Supergreen

**Vitality Greens 10.2 oz. /290 g    \$44.95**

## **Benefits**

What makes VITALITY different from all the other green drinks on the market today? Why is ours so special? With a unique focus on nourishing the inner ecosystem, this very alkalizing formula, especially created by Donna Gates, will soothe and help rebuild the lining of your intestines.

A generous amount of nutrient-rich elements like GlutImmune (a covalent bonded glutamine), FOS from chicory inulin, GMO-free lecithin, and aloe vera extract (200:1) help establish and maintain a healthy mucosal lining. As the leader in fermented food and nutrition we know how important it is to establish and nourish an inner ecosystem. This civilization of beneficial micro flora need healthy food just like you do; and they love algae. So, we've spared no cost in blending together an extraordinary spectrum (or life force) of fermented algae and cereal grasses, fermented green veggies, enzymes, probiotics and food-based supplements providing you the highest quality green drink on the market today. Use it to rebuild and strengthen your immunity and to create new vitality.

**VITALITY SuperGreen** is one of our most popular products. It's a must each morning and it makes a great afternoon pick-me-up.

It's an excellent source of complete, easily assimilated protein, enzymes, vitamins, minerals, lignans, essential fatty acids, nucleic acids, and beneficial microflora.

---

**Newly reformulated to include fermented algae, fermented greens and fermented Soy Lecithin, Vitality SuperGreen is a proprietary blend of:**
